

### **eGuide formatting change**

The panel of experts responsible for driving the eGuide project forward has decided that a PDF format should replace the previous HTML format of the online resource. The reasons for this change include the fact that the eGuide will be easier for the executive to maintain and keep up-to-date, easier for stakeholders to use, and the search functionality will be improved.

The use of bookmarks within the PDF (viewable by clicking the tab on the left hand side) will also aid clear navigation through the eGuide. Copy and pasting can easily be done by clicking on the 'text select tool' in the toolbar and then clicking and dragging across the text as within a word document.

For more information and help using PDFs please go to: <http://www.adobe.com/support/acrobat/>
