

DO YOU KNOW YOUR RISK ASSESSMENT FROM YOUR METHOD STATEMENT ?

We are pleased to re-introduce our very popular
Half Day Workshop

Email: christine.hasler@essa.uk.com to register your interest

What is a Risk Assessment?

It is an (recorded) evaluation and/or investigation of the potential dangers/hazards to employees and others that may arise from any acts or emissions from your business.

Why carry out a Risk Assessment?

Law - Management of Health & Safety at Works Regulations 1999 (MHSWE) Reg. 3. demands it.

Employers main defence at court

Protection from a potential fine should an Officer of Health & Safety Executive (H.S.E) visit you regarding an accident, complaint or any other business.

Identifies any potential dangers from your work—part of an Employers Duty of Care.

Encourages a more safety conscious environment.

What is a Method Statement?

It supports your Risk Assessment by explaining how you will carry out the task, your resources and if you are competent to achieve what you say.

What does it cost?

It costs just **£50+vat per person** for ESSA members to attend this very useful and informative half day workshop at ESSA House. Course dates will be set subject to take up, interest and wherever possible on a date convenient to you!

If you can't find the time to come to us we can hold this workshop in house at your own premises (minimum charge of £200 will apply for less than 4 delegates attending)

Don't forget your Duty of Care

Employers have a duty of care towards their employees and others from any act (work) or emissions from their business. *Health and Safety Work Act 1974 (HASAWA) Section 2* . Employers are expected to develop where necessary safe systems of work (SSoFW) "*the best way of carrying out the job*" and record them.
